Caitlin Wall

Full-Stack Web Developer

Full stack web developer skilled in solving problems with HTML, CSS, Javascript, React, and SQL! Focused on being an organized, dependable, and adaptable team member. I am always happy to shift gears and assist the team wherever required. I highly value teamwork, coding is a collaborative effort. Enthusiastic about continued learning and spending time on my passion projects! I am a former elementary school teacher, so I'm no stranger to wearing many hats at work.

PERSONAL PROJECTS

MentorMonkey (02/2022 - 02/2022)
- MentorMonkey is a web-based application which bridges skilled developers with mentees for on-the-spot mentorship.
- Built in a team of four with **HTML/CSS/JavaScript/Bootstrap/Handlebars/Node.js/Express.js/MySQL/Sequelize/Socket.io.**
- Live: https://secret-falls-29125.herokuapp.com/
- Github: https://github.com/caitlinw29/mentor-monkey

PlayMe (01/2022 - 01/2022)
- PlayMe is a web-based application where the user can randomly generate an activity to fill time, or play a ready-made card game.
- Built with **HTML/CSS/JavaScript/Materialize/jQuery.**
- Live: https://caitlinw29.github.io/PlayMe
- Github: https://github.com/caitlinw29/PlayMe

AntsGoMarching (12/2021 - 12/2021)
- AntsGoMarching is a browser-based game where the player tries to collect as many strawberries as they can without running into an owl, an ant, or off the edge of the blanket.
- Individual passion project - used Ania Kubow's Scrimba course as base. Built with **HTML/CSS/JavaScript.**
- Live: https://caitlinw29.github.io/AntsGoMarching/
- Github: https://github.com/caitlinw29/AntsGoMarching

PokeBattle (09/2021 - 10/2021)
- PokeBattle is a browser-based game which allows users to battle an opponent pokemon with a randomly chosen pokemon.
- Built in a team of four with **HTML/CSS/JavaScript/Bootstrap.**
- Live: https://caitlinw29.github.io/pokeBattle/
- Github: https://github.com/caitlinw29/pokeBattle

ACNH Random Villager Generator and Bingo Board Creator (07/2021 - 07/2021)
- Two applications that can be utilized together. The villager generator will show the picture of a randomly chosen villager. The bingo board creator will generate the villager images into a bingo board.
- This was a passion project and my first day using JavaScript.
- Live: https://caitlinw29.github.io/practiceProjects/
- Github: https://github.com/caitlinw29/practiceProjects
